Assistant Environmental Scientist

Format for Submission of Monthly Progress Report by States/UTs

(Hon'ble NGT in the matter of OA No.673/2018 dated 06.12.2019) RIVER PAMBA, PATHANAMTHITTA

S. No	Activity to be monitored	Timeline	Submission of progress by State/UT-Compliance status
1	Ensure 100% treatment of sewage at least in-situ remediation		
	Commencement of setting up of STPs and connecting all the drains and other sources of generation of sewage to the STPs must be ensured		
2	Timeline for completing all steps of action plans including completion of setting up STPs and their Commissioning		
5	 Chief Secretaries may set up appropriate monitoring mechanism at state level Specifying accountability of nodal authorities not below the Secretary level Chief Secretaries may have an accountable person attached in their office for this purpose 		
6	 Monitoring at State level must take place Progress report may be furnished by the State/UTs to Secretary, Ministry of Jal Shakti Member Secretary, CPCB 		

-				
6.1	Progress Report may be comprised of details along with completion timelines on:			
	(I) Identification of polluting sources including drains contributing to river pollution and action as per NGT order on in-situ treatment.			
	 (II) <u>Status of STPs, I&D and sewerage networks</u> Details of Existing Infrastructure,Gap Analysis, Proposed along with completion timeline 			
	(III) <u>Status of CETPs</u> Details of Existing CETP and ETP Infrastructure,Gap Analysis, Proposed along with completion timeline, No. of industries and complying status			
	 (iv)<u>Status of Solid Waste Management & Details of Processing</u> <u>Facilities</u> Details of Existing Infrastructure,Gap Analysis, Proposed along with completion timeline 			
	(v)Latest water quality of polluted river, its tributaries, drains with flow details and ground water quality in the catchment of polluted river;			
	vi)Preventing dumping of waste and scientific waste management including bio-medical waste, plastic waste and decentralizing waste processing, including waste generated from hotels, Ashrams, etc.			
	(vii)Ground water regulation			
	(viii) Adopting good irrigation practices			
	(ix) Protection and management of food plain Zones (FPZ)			

(x) Rain water harvesting		
(xi)Maintaining minimum Environmental flow of river		
(xii) Plantation on both sides of the river		
(xiii)Setting up biodiversity parks on flood plains by removing encroachment

ACTION BY GROUND WATER DEPARTMENT

Sl. No.	Ref para item nos as per NGT Order no.673/2018 dated	Activity	Progress in the month of November ,2022	Progress in the month of December,2022	% works completed	Details of works remaining
1	20.09.2018 B(i)	Ground Water resources and regulation of ground water extraction by industries particularly in over exploited as critical zones/blocks	NOC has not been issued to industries for Ground Water extraction during November 2022	NOC has not been issued to industries for Ground Water extraction during December 2022	Demand based	1.As per the GEC estimation all the blocks in the District has beencategorized as SAFE. 2.Provisions of GW (control &Regulation) Act 2002 is implementing strictly for regulating extraction of GW resource in the district
2	B(ii)	Ground water recharging / rain water harvesting	Artificial Recharge Structure 4 sites completed and 5 sites tendered. Technical Sanction obtained for 3 sites.	Artificial Recharge Structure 9 sites tendered and 9 sites selection notice issued	Demand based	All the blocks in the district is categorized as SAFEas per GEC estimation. Kadapra-Niranam Area is not feasible for Ground WaterRecharge. However, GW recharging programme is taken up in some pockets in the midland area including Manimala basin. Where seasonal GW level fluctuation is noticed.

3	B(iii)	Periodic ground waste quality assessment and remedial actions in case of contaminated ground water tube wells/bore wells or hand pumps	. Groundwater sample collection during the month of November 2022 from monitoring wells (borewells and open wells) collected and sent to Analytical Lab Thiruvananthapuram for chemical analysis soon	Groundwater sample collection during the month of December 2022 from monitoring wells (borewells and open wells) collected and sent to Analytical Lab Thiruvananthapuram for chemical analysis soon.	Periodical assessment(Regular programme) Chemical analysis result ofgroundwater samples collected during November- 2020 reveals that the gw quality is good and potable.	 (i)Maintaining a network of observation wells in varioushydrogeomorphic units throughout the district from which water level and water samples have been collected periodically and analysed. (ii)generally groundwater quality is good and potable
4	B(iv)	For regulating use of ground water for irrigation purpose, adopting good irrigation practices	Borewell/ tube well construction is regulated in the district by insisting permit of local bodies based on the feasibility report ii) Promoting conjunctive use of groundwater and surface water for irrigation purpose.	Borewell/ tube well construction is regulated in the district by insisting permit of local bodies based on the feasibility report ii) Promoting conjunctive use of groundwater and surface water for irrigation purpose.	Continuing programme	 i)Borewell/tube well construction is regulated in the district by insisting permit of local bodies based on the feasibility report of GWD ii) Promoting conjunctive use of groundwater and surface water for irrigation purpose. iii)Awareness programmes organised to the public to adopt rainwater harvesting measures

ANALYSIS REPORT OF DRAINS OF MANIMALA BETWEEN KALLOOPARA AND THONDRA DECEMBER-22

National Mission for Clean Ganga

Format for Submission of Monthly Progress Report by States/UTs (Hon'ble NGT in the matter of OA No.673/2018 dated 06.12.2019)

RIVER PAMBA, PATHANAMTHITTA

S. No.	Activity to be monitored	Timeline	Submission of progress by State/UT-Compliance status
1	Ensure 100% treatment of sewage at		NA
	least in-situ remediation		
	Commencement of setting up of STPs		NA
	and connecting all the drains and other		
	sources of generation of sewage to the		
	STPs must be ensured		
2	Timeline for completing all steps of		NA
	action plans including completion of		
	setting up STPs and their		
	Commissioning		
5	Chief Secretaries may set up		NA
	appropriate monitoring mechanism at		
	state level		
	• Specifying accountability of nodal		
	authorities not below the		
	Secretary level		

	 Chief Secretaries may have an accountable person attached in their office for this purpose 		
	 Monitoring at State level must take place 		
6	 Progress report may be furnished by the State/UTs to Secretary, Ministry of Jal Shakti Member Secretary, CPCB 	Monthly(pre ferably before 20 th of every month	NA

6. 1	 Progress Report may be comprised of details along with completion timelines on: (I) Identification of polluting sources including drains contributing to river pollution and action as per NGT order on in-situ treatment. 	2019-2020	Drains contributing to river pollution were Identified-The drains are seasonal and water quality is above the required limit, no in- situ Treatment is required
	 (II) <u>Status of STPs, I&D and sewerage</u> <u>networks</u> Details of Existing Infrastructure,Gap Analysis, Proposed along with completion timeline (III) <u>Status of CETPs</u> Details of Existing CETP and ETP Infrastructure,Gap Analysis, Proposed along with completion timeline, No. of industries and complying status 		Since the area does not contain any industry and so do not require any CETP, this action point is revised The adjoining local bodies are in the stage of developing and establishing adequate solid waste management facilities. Also, the solid waste dumping issues were not identified in the stretch during the field visit held during past one year. Water quality analysis results of December 2022 is enclosed. Awareness campaign to be initiated

	No ground water pollution is noted in the area so action yet to be initiated.
(iv) <u>Status of Solid Waste Management</u>	
& Details of Processing Facilities	Adopted.
Details of Existing	
Infrastructure,Gap Analysis,	Action will be initiated.
Proposed along with completion	
timeline	Action will be initiated.
(v)Latest water quality of polluted river,	Action will be initiated.
its tributaries, drains with flow	Action will be initiated.
details and ground water quality in the catchment of polluted river;	Action will be initiated.
(vi)Preventing dumping of waste and	
scientific waste management	
including bio-medical waste, plastic	
waste and decentralizing waste	
processing, including waste	
generated from hotels, Ashrams,	
etc.	

(vii)Ground water regulation	
(viii) Adopting good irrigation practices	
(ix) Protection and management of food plain Zones (FPZ)	
(x) Rain water harvesting	
(xi)Maintaining minimum Environmental flow of river	
(xii) Plantation on both sides of the river	
(xiii)Setting up biodiversity parks on flood plains by removing encroachment

National Mission for Clean Ganga

Format for Submission of Monthly Progress Report by States/UTs (Hon'ble NGT in the matter of OA No.673/2018 dated 06.12.2019)

RIVER PERIYAR, ERNAKULAM

Sl. No.	Activity to be monitored	Timeline	Submission of progress by State/UT- Compliance status
1	Ensure 100% treatment of sewage at least in-situ remediation		
	Commencement of setting up of STPs and connecting all the drains and other sources of generation of sewage to the STPs must be ensured		
2	Timeline for completing all steps of action plans including completion of setting up STPs and their Commissioning		
5	 Chief Secretaries may set up appropriate monitoring mechanism at state level Specifying accountability of nodal authorities not below the Secretary level Chief Secretaries may have an accountable person attached in their office for this purpose 		
	Monitoring at State level must take place		
6	Progress report may be furnished by the State/UTs toSecretary, Ministry of Jal ShaktiMember Secretary, CPCB		

6.1	Progress Report may be comprised of details along with completion timelines on:(I)Identification of polluting sources including drains contributing to river pollution and action as per NGT order on in-situ treatment.	
	(II) <u>Status of STPs, I&D and sewerage networks</u> Details of Existing Infrastructure,Gap Analysis, Proposed along with completion timeline	
	 (III) <u>Status of CETPs</u> Details of Existing CETP and ETP Infrastructure,Gap Analysis, Proposed along with completion timeline, No. of industries and complying status 	
	 (iv)<u>Status of Solid Waste Management & Details of</u> <u>Processing Facilities</u> Details of Existing Infrastructure,Gap Analysis, Proposed along with completion timeline 	
	(v) Latest water quality of polluted river, its tributaries, drains with flow details and ground water quality in the catchment of polluted river;	
	(vi)Preventing dumping of waste and scientific waste management including bio-medical waste, plastic waste and decentralizing waste processing, including waste generated from hotels, Ashrams, etc.	

(vii)Ground water regulation	
(viii) Adopting good irrigation practices	
(ix) Protection and management of food plain Zones (FPZ)	
(x) Rain water harvesting	
(xi)Maintaining minimum Environmental flow of river	
(xii) Plantation on both sides of the river	
(xiii)Setting up biodiversity parks on flood plains by removing encroachment	

ACTION PLAN FOR RIVER PERIYAR, KERALA SHORT TERM MEASURES

National Mission for Clean Ganga

Format for Submission of Monthly Progress Report by States/UTs (Hon'ble NGT in the matter of OA No.673/2018 dated 06.12.2019)

RIVER KECHERY, THRISSUR

S. No.	Activity to be monitored		Submission of progress by State/UT-
110.		Timeline	Compliance status
1	Ensure 100% treatment of sewage at least in-situ		
	remediation		
	Commencement of setting up of STPs and connecting all		
	the drains and other sources of generation of sewage to		
	the STPs must be ensured		
2	Timeline for completing all steps of action plans including		
	completion of setting up STPs and their Commissioning		
5	Chief Secretaries may set up appropriate monitoring		
	mechanism at state level		
	• Specifying accountability of nodal authorities not		
	below the Secretary level		
	• Chief Secretaries may have an accountable person		
	attached in their office for this purpose		
	Monitoring at State level must take place		
6	Progress report may be furnished by the State/UTs to		
	Secretary, Ministry of Jal Shakti		
	Member Secretary, CPCB		

6.1	Progress Report may be comprised of details along with completion timelines on:(I) Identification of polluting sources including drains contributing to river pollution and action as per NGT order on in-situ treatment.			
	(II) <u>Status of STPs, I&D and sewerage networks</u> Details of Existing Infrastructure, Gap Analysis, Proposed along with completion timeline			
	(III) <u>Status of CETPs</u> Details of Existing CETP and ETP Infrastructure, Gap Analysis, Proposed along with completion timeline, No. of industries and complying status			
	 (iv)<u>Status of Solid Waste Management & Details of Processing Facilities</u> Details of Existing Infrastructure, Gap Analysis, Proposed along with completion timeline 			
	 (v) Latest water quality of polluted river, its tributaries, drains with flow details and ground water quality in the catchment of polluted river; 			
	(vi)Preventing dumping of waste and scientific waste management including bio-medical waste, plastic			

waste and decentralizing waste processing, including waste generated from hotels, Ashrams, etc.		
(vii)Ground water regulation		
(viii) Adopting good irrigation practices		
(ix) Protection and management of food plain Zones (FPZ)		
(x) Rain water harvesting		
(xi)Maintaining minimum Environmental flow of river		
(xii) Plantation on both sides of the river		
(xiii)Setting up biodiversity parks on flood plains by removing encroachment

	Commencement of setting up of STPs and connecting all the drains and other sources of generation of sewage to the STPs must be ensured	31.12.2022	In progress
2	Timeline for completing all steps of action plans including completion of setting up STPs and their Commissioning		STP completed initial PCB NOC obtained.
5	 Chief Secretaries may set up appropriate monitoring mechanism at state level Specifying accountability of nodal authorities not below the Secretary level Chief Secretaries may have an accountable person attached in their office for this purpose 		 360 KLD Sewage Treatment Plant for General Hospital, Thrissur Administrative Sanction has been accorded for this project vide GO (Rt) No. 5/2018/LSGD dated 01/01/2018 for Rs. 3.52Cr.TS accorded for Rs. 3.52Cr from the technical committee constituted for AMRUT sewerage projects. Work has

been awarded to M/s Green Eco Water
Systems, Hyderabad. Agreement
executed on 14/10/2020. Consent to
establish obtained from PCB on
17/12/2020. Even after conducting
several
meetings with the contractor,
contractor
has not started the work. Hon.Council
dated 29.01.2022 decided to terminate
the
contract under risk and cost of the
contractor and also to black list the
contractor. It has been also decided by the
council to invite limited tender from
accredited agencies as per rules. Now the
schedule of rate changed from approved
estimate. Corporation council dated
31.08.2022 approved the recasted
estimate amounting to Rs. 4.50 cr.
Revised AS obtained for Rs. 4.5 cr. vide
GO(Rt) No. 3222/22/LSGD dtd:

27.12.2022. Revised technical sanction
obtained for Rs. 4.50 Cr. on 18.12.2022
open technology tender invited on
21.12.2022.
100KLD Septage Treatment Plant at
Ramavarmapuram, Thrissur
Administrative Sanction has been
accorded for this project vide GO (Rt)
No. 5/2018/LSGD dated 01/01/2018 for
Rs. 3.50Cr.TS accorded for Rs. 3.10 Cr
from the technical committee
constituted for AMRUT sewerage
projects. Selection memo has been
issued to M/s Green Eco Water
Systems, Hyderabad. Hon. Council has
decided to get the consent to establish
from PCB first and then to proceed for
further steps of executing agreement.
Consent to establish obtained from
PCB on 28/05/2021.Contractor has not
executed the agreement even after
issuing several notices in this regard.
Hon.Council dated 29.01.2022

		decided to terminate the contract under risk and cost of the contractor and also to black list the contractor. It has been also decided by the council to invite limited tender from accredited agencies as per rules. Now the schedule of rate changed from approved estimate. Revised technical sanction for the recast estimate amounting to Rs. 3.5 Cr. obtained on 18.12.2022. Open technology tender invited on 21.12.2022.
	Monitoring at State level must take place	
6	 Progress report may be furnished by the State/UTs to Secretary, Ministry of Jal Shakti Member Secretary, CPCB 	

6.1	Progress Report may be comprised of details along with completion timelines on:(I) Identification of polluting sources including drains contributing to river pollution and action as per NGT order on in-situ treatment.		
	(II) <u>Status of STPs, I&D and sewerage networks</u> Details of Existing Infrastructure, Gap Analysis, Proposed along with completion timeline		
	(III) <u>Status of CETPs</u> Details of Existing CETP and ETP Infrastructure, Gap Analysis, Proposed along with completion timeline, No. of industries and complying status		
	 (iv)<u>Status of Solid Waste Management & Details of</u> <u>Processing Facilities</u> Details of Existing Infrastructure, Gap Analysis, Proposed along with completion timeline 		
	 (v) Latest water quality of polluted river, its tributaries, drains with flow details and ground water quality in the catchment of polluted river; 		
	(vi)Preventing dumping of waste and scientific waste management including bio-medical waste, plastic		

waste and decentralizing waste processing, including waste generated from hotels, Ashrams, etc.	
(vii)Ground water regulation	
(viii) Adopting good irrigation practices

Format for Submission of Monthly Progress Report by States/UTs (Hon'ble NGT in the matter of OA No.673/2018 dated 06.12.2019)

RIVER BHARATHAPUZHA, PALAKKAD – DECEMBER 2022

S. No	Activity to be monitored	Timeline	Submission of progress by State/UT- Compliance status
1	Ensure 100% treatment of sewage at least in-situ remediation	March 2021	Kerala Water Authority prepared a DPR for STP and submitted to the Government. The STP is proposed to be
	Commencement of setting up of STPs and connecting all the drains and other sources of generation of sewage to the STPs must be ensured	Not proposed	installed at Nambram in Pattambi municipality in about 50 cent of land The survey for the sewerage pipeline was also completed and it was also included in the DPR.
2	Timeline for completing all steps of action plans including completion of setting up STPs and their Commissioning	March 2021 (Primary STP and Septage Treatment Plant proposed, not STP)	Kerala Water Authority was prepared a DPR for sewerage network and STP and submitted for approval.
5	 Chief Secretaries may set up appropriate monitoring mechanism at state level Specifying accountability of nodal authorities not below the Secretary level Chief Secretaries may have an accountable person attached in their office for this purpose 	Applicable at State level	Not Applicable
	Monitoring at State level must take place	Applicable at State level	Not Applicable
6	 Progress report may be furnished by the State/UTs to Secretary, Ministry of Jal Shakti Member Secretary, CPCB 	Applicable at State level	Not Applicable

5.1	Progress Report may be comprised of details along with completion timelines on:(I) Identification of polluting sources including drains contributing to river pollution and action as per NGT order on in-situ treatment.	Primary STP (oil and grease trap with grit chamber)- March 2021	Kerala Water Authority is preparing a DPR for sewerage network and STP and submitted for approval.
	 (II) <u>Status of STPs, I&D and sewerage networks</u> Details of Existing Infrastructure, Gap Analysis, Proposed along with completion timeline 	Not Proposed	Not Applicable
	(III) <u>Status of CETPs</u> Details of Existing CETP and ETP Infrastructure, Gap Analysis, Proposed along with completion timeline, No. of industries and complying status	Not proposed	Not Applicable
	(iv) <u>Status of Solid Waste Management & Details of Processing Facilities</u> Details of Existing Infrastructure, Gap Analysis, Proposed along with completion timeline	MSW treatment Plant – March 2021	Implemented
	 (v) Latest water quality of polluted river, its tributaries, drains with flow details and ground water quality in the catchment of polluted river; 	March 2021	Water quality monitoring of polluted river stretch and two additional points were completed untilJuly2022. Results are complying with outdoor bathing standards.
	vi)Preventing dumping of waste and scientific waste management including bio-medical waste, plastic waste and decentralizing waste processing, including waste generated from hotels, Ashrams, etc.	Implemented by January 2020	Management of dry wastes were achieved through the MCF and RCF facilities, BMW by CBWTDF, E-Waste by authorised collection agencies.

(vii)Ground water regulation	No specific proposal	Not Applicable
(viii) Adopting good irrigation practices	No specific proposal	Not Applicable
(ix) Protection and management of food plain Zones (FPZ)	March 2021	DPR for regulating flood plain zone protection and management, and E-flow maintenance in the Bharathapuzha at Pattambi were prepared by Irrigation Department and submitted to the government several months ago. But funding did not get sanctioned.
(x) Rain water harvesting	No specific proposal	Not Applicable
(xi)Maintaining minimum Environmental flow of river	March 2021	A more comprehensive DPR by Irrigation Department and submitted for approval of State Government
(xii) Plantation on both sides of the river	No specific proposal	Not applicable
(xiii)Setting up biodiversity parks on flood plains by removing encroachment	No specific proposal	Not applicable

RIVER BHAVANI, PALAKKAD- DECEMBER 2022

S. No.	Activity to be monitored	Timeline	Submission of progress by State/UT- Compliance status
1	Ensure 100% treatment of sewage at least in-situ	March 2020.	Action plan completed. Septic tank
	remediation	Target achieved	systems are adopted for entire sewage treatment
	Commencement of setting up of STPs and connecting all the drains and other sources of generation of sewage to the STPs must be ensured		Not Applicable
2	Timeline for completing all steps of action plans including completion of setting up STPs and their Commissioning	STP not Proposed	Septic tank systems are adopted for entire sewage treatment
5	 Chief Secretaries may set up appropriate monitoring mechanism at state level Specifying accountability of nodal authorities not below the Secretary level Chief Secretaries may have an accountable person attached in their office for this purpose 	Applicable at State level	Not Applicable
	 Monitoring at State level must take place 	Applicable at State level	Not Applicable
6	 Progress report may be furnished by the State/UTs to Secretary, Ministry of Jal Shakti Member Secretary, CPCB 	Applicable at State level	Not Applicable

6.1	Progress Report may be comprised of details along with completion timelines on: (I) Identification of polluting sources including drains	Drains contributing	Not Applicable
	contributing to river pollution and action as per NGT order on in-situ treatment.	pollution to the River were not identified	
	 (II) <u>Status of STPs, I&D and sewerage networks</u> Details of Existing Infrastructure,Gap Analysis, Proposed along with completion timeline 	Not Proposed	Not Applicable
	 (III) <u>Status of CETPs</u> Details of Existing CETP and ETP Infrastructure,Gap Analysis, Proposed along with completion timeline, No. of industries and complying status 	Not proposed	Not Applicable
	 (iv)<u>Status of Solid Waste Management & Details of Processing Facilities</u> Details of Existing Infrastructure,Gap Analysis, Proposed along with completion timeline 	Dec 2020	Dry waste- Implemented. Material Collection Facility and 80% of work completed for MSW treatment plant. Wet waste- 100% Managed at source level

 (v) Latest water quality of polluted river, its tributaries, drains with flow details and ground water quality in the catchment of polluted river; 	March 2021	Water quality monitoring of polluted river stretch and three additional points were completed until July2022
(vi)Preventing dumping of waste and scientific waste management including bio-medical waste, plastic waste and decentralizing waste processing, including waste generated from hotels, Ashrams, etc.	Implemented by January 2020	Not applicable
(vii)Ground water regulation	No specific proposal	Not applicable
(viii) Adopting good irrigation practices	No specific proposal	Not applicable
(ix) Protection and management of food plain Zones (FPZ)	March 2021	A more comprehensive DPR prepared and submitted for approval by Irrigation Department -Check dams at Bhoothivazhi, Anakkal and Chemmanur are proposed in the DPR.
(x) Rain water harvesting	No specific proposal	Not applicable

(xi)Maintaining minimum Environmental flow of river	March 2021	A more comprehensive DPR prepared and submitted to the Government for approval by Irrigation Department
(xii) Plantation on both sides of the river	No specific proposal	Not applicable
(xiii)Setting up biodiversity parks on flood plains by removing encroachment	No specific proposal	Not applicable

Completed and functioning

31/103/2021

31/10/2021

Construction started for block level MRF for 7panchayath in the Kuttiyady block.

MCF of KuttiyadiPanchayath set up with shredding unitwork completed and functioning.

Mini MCF set up in all wards of Kuttiyadipanchayath.

Kavilumparapanchayath 3 MCFs are functioning.

<u>MaruthomkaraPanchaya</u> <u>th</u> MRF completed and

functioning. Biogas plant work completed.

<u>VelomPanchayath</u> Community level – Biogas plant.Workunder construction(80% work completed). 50 nos of Biogas plant for house hold- Completed and functioning 50 nos of Biogas plant for house hold- Completed and functioning

<u>PerambraPanchayath</u> MCF- Tendering in progress Mini MCF – work completed.

<u>ChangarothPanchayath</u> Project for setting up MCF approved. Site to be identified soon. Biogas plant and Ring compost for house hold proposed. Plastic shredding unit proposed.

<u>1.Kavvayi</u>

SLno	Drain	BOD on November 2022	Remarks
3	Koti thodu	8.2	Waste disposal from side by shops , Hotels, near by mosque.
2	School ground thedu	No water	 rel +
3	Kalikadapuram thodu	No water	
-	Koorikadavu	No water	Drain covered with mud ,plastic wastes
;	Ulliyathu ƙadavu	4.68	Plastic waste seen , black color water with h/s smell.
	Kallatu kadavu	Small amount of Water which cannot be fetched	
2	Muttathu kadavu	3.2	Prastic waste seen.
	Vaðip/am thodu	Small amount of water which cannot be fetched	Construction work going on, one side is full of plastic waste

2.Peruvamba

	Drain	BOD on DECEMBER 2022	Remarks
	Naranga thodu	4.2	Plastic waste was noticed , water with smell.
2	Perumba Ihodu	3.6	Plastic waste was noticed ,water with smell, nearby shopping complex shops are dumping waste.
3	Valliohmthodu	3.4	Water with Plastic waste.
4	Panapuzha thodu	0.62	
5	Poomkottu Chal	0,88	Plastic waste seen side wise road.
6	Manjangottu Uhode	0.36	
7	Kannelamthodu	1.2	

8	Appithodu	0.82	
ĥ	Mavullapoyil thodu	0.86	Plastic waste,
10	Kollali thodu	1.2	Small amount of water
11	Kaunada thodu	0.64	
12	Koyakkotu (hodu Thokadu	0.32	
13	Cherottuvayal thodu	No water	
14	Kayyil arakularu thodu	3.2	
	Kunjimagalam puzha		
15	Tattanyayal thodu	0.66	

3. Ramapuram thodu

Drain	BOD on November 2022	Remark
Kapugal thodu	0.82	
Chembali kundu 🥜	3.2	Plastic waste and floating bottles are noticed.
Kulaprami kundan thodu Kavilavalapu thodu	3,6	
Aduthila thodu	No water	
Ottayi thodu	3.4	
	Kapugal thodu Chembali kundu Kulapram kundan thodu Kavilavalapu thodu Aduthila thodu	Kapugal thodu 2022 Kapugal thodu 0.82 Chembali kundu 3.2 Kulapram kundan thodu 3.6 Kavilavalapu thodu No water

6	Moolakadavu	2.82	Oil presence in water, decayed organic materials are seen,

1000

4.Kuppam

SI.no	Drain	BOD on DECEMBER 2022	Remarks
1	Karuvanchal	1.2	
2	Karthikapuram	1.6	Plastic waste was noticed
3	Near Udayagiri Bridge	0.88	
4	Mukkada Thodu	1.6	
5	Moonamkunnu Thodu	1.1	
6	Kuttaparamba- Neduvodu Thodu	2	Plastic waste, are floating in water and the thodu is full of plastic wastes coming from upstream and so
7	D/S of Alakode Hospital	No water	
8	Pathayachira	3.42	l'urbid water present with high Plastic waste
9	Near the houses on bank of main River (@ Pariyaram GP)	3.2	
10	Near House Boat @ Parlyaram GP	3.6	
11	Kavinmunabu	2.1	

12	Manja Thodu	3.29	
13	Sulthan Thodu	4.8	Floating waste is seen, plastic and intestinal waste of animals are floating.
14	Cheru thodu	3.6	

National Mission for Clean Ganga

Format for Submission of Monthly Progress Report by States/UTs

(Hon'ble NGT in the matter of OA No.673/2018 dated 06.12.2019)

RIVER MOGRAL, KASARGOD

S. No.	Activity to be monitored	Timeline	Submission of progress by State/UT- Compliance status
1	Ensure 100% treatment of sewage at least in-situ		
	remediation		
	Commencement of setting up of STPs and connecting all		
	the drains and other sources of generation of sewage to		
	the STPs must be ensured		
2	Timeline for completing all steps of action plans including		
	completion of setting up STPs and their Commissioning		
5	Chief Secretaries may set up appropriate monitoring		
	mechanism at state level		
	 Specifying accountability of nodal authorities not below the Secretary level 		
	• Chief Secretaries may have an accountable person attached in their office for this purpose		
	Monitoring at State level must take place		
6	Progress report may be furnished by the State/UTs to		
	 Secretary, Ministry of Jal Shakti 		
	Member Secretary,CPCB		

6.1	Progress Report may be comprised of details along with	
0.1		
	completion timelines on:	
	(I) Identification of polluting sources including drains	
	contributing to river pollution and action as per NGT	
	order on in-situ treatment.	
	(II) Status of STPs, I&D and sewerage networks Details of	
	Existing Infrastructure, Gap Analysis, Proposed along	
	with completion timeline	
	(III) <u>Status of CETPs</u>	
	Details of Existing CETP and ETP Infrastructure, Gap	
	Analysis, Proposed along with completion timeline,	
	No. of industries and complying status	
	(iv)Status of Solid Waste Management & Details of	
	Processing Facilities	
	Details of Existing Infrastructure, Gap Analysis, Proposed	
	along with completion timeline	
	(v) Latest water quality of polluted river, its tributaries,	
	drains with flow details and ground water quality in	
	the catchment of polluted river;	
	vi)Preventing dumping of waste and scientific waste	
	management including bio-medical waste, plastic	
	management including bio-medical waste, plastic	

waste and decentralizing waste processing, including waste generated from hotels, Ashrams, etc.	5
waste generated nom noters, Asmanis, etc.	
(vii)Ground water regulation	
(viii) Adopting good irrigation practices	
(ix) Protection and management of food plain Zones (FPZ)	
(x) Rain water harvesting	
(xi)Maintaining minimum Environmental flow of river	
(xii) Plantation on both sides of the river	
(xiii)Setting up biodiversity parks on flood plains by	/
removing encroachment

National Mission for Clean Ganga

Format for Submission of Monthly Progress Report by States/UTs (Hon'ble NGT in the matter of OA No.673/2018 dated 06.12.2019)

RIVER UPPALA, KASARGOD

S. No.	Activity to be monitored	Timeline	Submission of progress by State/UT- Compliance status
1	Ensure 100% treatment of sewage at least in-situ		
	remediation		
	Commencement of setting up of STPs and connecting all		
	the drains and other sources of generation of sewage to		
	the STPs must be ensured		
2	Timeline for completing all steps of action plans including		
	completion of setting up STPs and their Commissioning		
5	Chief Secretaries may set up appropriate monitoring		
	mechanism at state level		
	 Specifying accountability of nodal authorities not below the Secretary level 		
	Chief Secretaries may have an accountable person attached in their office for this purpose		
	attached in their office for this purpose		
	 Monitoring at State level must take place 		
6	Progress report may be furnished by the State/UTs to		
	 Secretary, Ministry of Jal Shakti 		
	Member Secretary, CPCB		

6.1	Progress Report may be comprised of details along with completion timelines on:(I) Identification of polluting sources including drains contributing to river pollution and action as per NGT order on in-situ treatment.	
	(II) <u>Status of STPs, I&D and sewerage networks</u> Details of Existing Infrastructure,Gap Analysis, Proposed along with completion timeline	
	 (III) <u>Status of CETPs</u> Details of Existing CETP and ETP Infrastructure,Gap Analysis, Proposed along with completion timeline, No. of industries and complying status 	
	 (iv)<u>Status of Solid Waste Management & Details of</u> <u>Processing Facilities</u> Details of Existing Infrastructure,Gap Analysis, Proposed along with completion timeline 	
	 (v) Latest water quality of polluted river, its tributaries, drains with flow details and ground water quality in the catchment of polluted river; 	
	(vi)Preventing dumping of waste and scientific waste management including bio-medical waste, plastic waste and decentralizing waste processing, including waste generated from hotels, Ashrams, etc.	

(vii)Ground water regulation	
(viii) Adopting good irrigation practices	
(ix) Protection and management of food plain Zones (FPZ)	
(x) Rain water harvesting	
(xi)Maintaining minimum Environmental flow of river	
(xii) Plantation on both sides of the river	
(xiii)Setting up biodiversity parks on flood plains by removing encroachment
